

The interest of the leaders of this country has become to protect big business, and not the lowly tax payers. PLEASE see that media consolidation does not come to pass. Even as it is, the media is so limited as to what they can or will report; this will only serve to make it worse. The majority of the citizens of this country are completely ignorant as to what is actually going on and what rights are being taken away from all of us; not to mention the privacy of each of us; NOT the terrorist, the John Q. Public's who just happen to live here, have been citizens here all of our lives, and pay our taxes. I URGE you not to allow the already controlled media to not be owned by one company.
